Safeguarding Update – Kids Online Safety

ALL

[Kids Online Safety](#) is a new DfE website to support families and encourage regular conversations about what they're seeing online, asking simple questions, like "who shared this" and "why?". Based on parents' main concerns and needs, it provides:

- tips for parents' conversations with their children
- actions to support each stage of their child's life
- parental controls information

The DfE are also signposting to trusted resources from charities and third parties, where parents can access other forms of support (like speaking to an expert).

The website will continue to grow and be developed this year, supporting the [Online Safety Act](#) and wider government aims.
